

A. FP Organizations:

Include any government organizations (national, regional, local), NGOs (international, national, local), and groups in the commercial/private sector. For each organization, fill out the columns: Role in FP, size and location and/or coverage area, other important facts/factors, and contact information. NOTE: There may be overlap between the categories; there is no need to list an organization multiple times, unless you feel that it is necessary to do so.

Once you are finished filling this out, upload the tables into the Program Design Template.
