

D. FP Related/Tangential Services, Providers, Facilities and Programs

Describe here any organizations which are tangentially related to or involved in FP or who might become involved in FP that are not included in the above tables.

This may include other hospitals and birthing centers, medical centers, HIV/MNCH facilities, adolescent health facilities, immunization centers, pharmacies, drug shops etc. that don't currently offer FP; and/or women's groups, community groups, and local organizations and programs interested in improving family health, welfare, education and development.

Organization Name & Type	Organization Role	Current/Potential Relationship to FP	Size and Location(s) and/or coverage area	Other Important Facts/Factors	Contact Information

Upload this information to the Program Design Template.
