

Category Catégorie	: Big ideas for engaging local governments and ensuring release of commitments
Title of Entry Titre de la candidature	: Score card on local leadership performance on Family planning and release of commitments
Hub	: East Africa
Endorsement email	:
Background Key Challenge Statement Why Énoncé du défi clé	: Since the start of TCI, we are having a number of geographies committing resources but very few living up to the fulfillment of their commitments. This is negatively impacting on the TCI model. We need to ensure that these commitments are realized if we are to celebrate all the program outputs of TCI. <a href="#">Read more»</a>
Your Powerful Idea What Votre Idée retentissante	: The Local leadership needs to be scored on their performance in view of their commitments. These scores need to be shared with the national grading system especially the Population planning bodies so as to incorporate them in Annual Local government performances. Rewards to top performers ( Mayors, Governors, District Chairpersons etc) should be organized and given at national level by top national leadership on behalf of TCI. This naming and recognition ceremony should be tagged on big national events and should not necessarily stand alone as a TCI funded activity. This will ensure that all leaders task their technical teams to be able to spend money as per their commitments. This idea comes from the fact that Top Political leaderships enjoy Clout especially if accorded at national level and competition with other Local leaders pushes them to work harder. <a href="#">Read more»</a>
Timeline When Chronogramme	: 2019/2020 financial year. If my idea is feasible, my next step is to work closely with National planning Authority, National Planning Council , Ministry of Local government, Ministry of Health, Ministry of Finance and Prime-ministers' office to make it a reality. <a href="#">Read more»</a>
Measuring Impact and Success How Mesurer l impact et le succès	: The success will be measured through tracking release of Geography commitments. This should be seen to increase drastically as compared to the other years since the top decision makers will be in the driving sit of following up on their own commitments. Financial documents from the geographies should show that these commitments are actually being spent on family planning <a href="#">Read more»</a>
Team or Individual Names Noms de l équipe ou de la des personne s	: Katamba Allan Semakula
